REPORTS:

Commissioner Gilmore read highlights from the Police Department monthly reports for June. The Fire Department report was not available. Commissioner Gilmore stated that he hoped everyone enjoyed the July 4 festivities and thanked the Police Department for their service. They worked for comp time rather than overtime which helped the Borough. The DPW men who put out the barricades on the holiday and the

efforts of the Celebrations Committee, specifically Carla Bonamassa and Sharon James, made it a beautiful day. It is a difficult day because of the tragedy nine years ago but everyone rallies and stands tall. He loves to see everyone in their dress uniforms. Hope everyone has a good summer and stay cool.

Commissioner Greenwald reported the construction report was not available. In DPW, Chris Fitzgerald was newly appointed as Safety Coordinator replacing Anthony Stagliano. Anthony has served the borough for a number of years in several positions and we are grateful to him. Again last month there were no accidents or injuries. Fitz is in the process of setting up a new safety program for all departments. Single stream recycling was almost 80,000 pounds. DPW responded to four sewer calls, maintaining the town sign at Mary Bray and the Second Ave wet well and taking care of bolts at the playground at Mary Bray. One resolution approved tonight creates a shared service of nine towns which will go out for a collective bid for trash disposal and will hopefully get us much better pricing and help keep taxes down. Lastly, thanks to Carla and Sharon, the Celebrations Committee, Police Department and Public Works for a great July parade.

Engineer Joe Federici reported that their office is finalizing the plans and specifications for the Hartka Avenue project which is being funded by a DOT grant and that the project should start this summer.

Mayor Wolk read the receipt totals from the Tax Collector report for the month of May, 2011. He also thanked everyone who worked on the parade. Mayor Wolk added our appreciation to the following businesses which sponsored the festivities: First Colonial Bank, Mt. Ephraim Dodge, Canal's, Auto Shine and Dominos Pizza. They supported the parade monetarily. Our next workshop is July 26 at 3pm.

PUBLIC PARTICIPATION:

Mayor Wolk opened the meeting to the public and asked that residents state their name and address for the record.

Ben Vinci, 12 Lincoln Avenue, expressed concerns with the Spread Eagle. They moved out a few months ago and now have tenants. The tenants are having the same problems they had which involves trash, foul language, oil bins outside and parking issues. Sometimes patrons block driveways. Can we require that patrons use the parking lot or can we control parking on Lincoln. Mayor Wolk said it sounds like a quality of life issue. Commissioner Gilmore said the construction official has addressed the oil and they have been told to remove. The parking issue has been a problem for many years and it is a public street. If your tenants become bothered by the loud noises please tell them to call the police. He asked if there were any specific nights and Mr. Vinci said the main problems were on Friday and Saturday nights. He asked the Chief to see if he can step up patrols on those nights, especially after 10pm. The smoking ban causes people to go outside. Please be sure to call 911 when there is a problem.

Diane Vilardo, 11 Lincoln Avenue, agreed that the foul language is an ongoing problem. She thinks the parking problems stemmed from the July 4 festivities and graduation parties. She has asked patrons in the past to please tone down their language. They seem to have no concern for other people. She then asked about the installation of equipment at the firehouse. As the building has not yet been turned over to the borough, are there insurance issues for any work the firemen do in the meantime. If they are in there working and the insurance responsibility still lies with the contractor, will that create a problem? Also, when residents call for an ambulance and they get billed, she thought they would accept what the insurance company pays. Mayor Wolk said that was his understanding. Her brother is being billed for the difference. Mayor Wolk said he believes that is a "soft bill" and his understanding is that it should go away.

Seeing no further public comment, on a motion by Commissioners Greenwald and Gilmore, meeting was adjourned at 8:27pm.

Respectfully submitted,
Terry Shannon,
Borough Clerk
