

ORDINANCE NO. 2024-05

ORDINANCE OF THE BOROUGH OF MOUNT EPHRAIM, COUNTY OF CAMDEN, STATE OF NEW JERSEY, REPEALING AND REPLACING ORDINANCE 2023-13, TO INCLUDE NEW CHAPTER 307 ENTITLED, “PRIVATELY-OWNED SALT STORAGE”

WHEREAS the Borough of Mount Ephraim (the “Borough”) is a municipal corporation organized and operating under the laws of the State of New Jersey; and

WHEREAS the Borough is required to maintain compliance with the Municipal Separate Stormwater Permit (MS4 Permit) and the revised MS4 Permit requires the Borough to adopted regulations on privately-owned salt storage; and

WHEREAS pursuant to N.J.S.A. 40:48-2, the Mayor and Commissioners of the Borough are authorized to enact and amend ordinances as deemed necessary for the preservation of the public health, safety and welfare, and as may be necessary to carry into effect the powers and duties conferred and imposed upon the Borough by law; .

NOW, THEREFORE, BE IT ORDAINED by the Governing Body of the Borough of Mount Ephraim that Ordinance 2023-13, adopted September 7, 2023, is hereby repealed in its entirety and replaced in the Code of the Borough of Mount Ephraim as follows:

SECTION 1. The Code of the Borough of Mount Ephraim is hereby amended, revised, and supplemented by adding new Chapter 307, entitled “Privately-Owned Salt Storage” as follows:

§ 307-1 Purpose.

The purpose of this ordinance is to prevent stored salt and other solid de-icing materials from being exposed to stormwater. This ordinance establishes requirements for the storage of salt and other solid de-icing materials on properties not owned or operated by the municipality (privately-owned)* in the Borough of Mount Ephraim to protect the environment, public health, safety and welfare, and to prescribe penalties for failure to comply.

§ 307-2 Definitions:

For the purpose of this ordinance, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When consistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word “shall” is always mandatory and not merely directory.

- A. “De-icing materials” means any granular or solid material such as melting salt or any other granular solid that assists in the melting of snow.
- B. “Impervious surface” means a surface that has been covered with a layer of material so that it is highly resistant to infiltration by water.
- C. “Storm drain inlet” means the point of entry into the storm sewer system.
- D. “Permanent structure” means a permanent building or permanent structure that is anchored to a permanent foundation with an impermeable floor, and that is completely roofed and walled (new

structures require a door or other means of sealing the access way from wind driven rainfall).

A fabric frame structure is a permanent structure if it meets the following specifications:

1. Concrete blocks, jersey barriers or other similar material shall be placed around the interior of the structure to protect the side walls during loading and unloading of de-icing materials;
2. The design shall prevent stormwater run-on and run through, and the fabric cannot leak;
3. The structure shall be erected on an impermeable slab;
4. The structure cannot be open sided; and
5. The structure shall have a roll up door or other means of sealing the access way from wind driven rainfall.

E. "Person" means any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

F. "Resident" means a person who resides on a residential property where de-icing material is stored.

§ 307-3. Deicing Material Storage Requirements:

A. Temporary outdoor storage of de-icing materials in accordance with the requirements below is allowed between October 15th and April 15th as follows:

1. Loose materials shall be placed on a flat, impervious surface in a manner that prevents stormwater run-through;
2. Loose materials shall be placed at least 50 feet from surface water bodies, storm drain inlets, and/or ditches or other stormwater conveyance channels;
3. Loose materials shall be formed in a cone-shaped storage pile. If loading or unloading activities alter the cone-shape during daily activities, tracked materials shall be swept back into the storage pile, and the storage pile shall be reshaped into a cone after use;
4. Loose materials shall be covered as follows:
 - a. The cover shall be waterproof, impermeable, and flexible;
 - b. The cover shall extend to the base of the pile(s);
 - c. The cover shall be free from holes or tears;
 - d. The cover shall be secured and weighed down around the perimeter to prevent removal by wind;
 - e. Weight shall be placed on the cover(s) in such a way that minimizes the potential of exposure as materials shift and runoff flows down to the base of the pile.

(1) Sandbags lashed together with rope or cable and placed uniformly over the flexible cover, or poly-cord nets provide a suitable method. Items that can potentially hold water (e.g., old tires) shall not be used.

5. The site shall be free of all de-icing materials between April 16th and October 14th; and

6. Containers must be sealed when not in use.

B. De-icing materials should be stored in a permanent structure if a suitable storage structure is available. For storage of loose deicing materials in a permanent structure, such storage may be permanent, and thus not restricted to October 15th to April 15th.

C. The property owner, or owner of the deicing materials if different, shall designate a person(s) responsible for operations at the site where these materials are stored outdoors, and who shall document that weekly inspections are conducted to ensure that the conditions of this ordinance are met. Inspection records shall be kept on site and made available to the municipality upon request.

1. Residents who operate businesses from their homes that utilize de-icing materials are required to perform weekly inspections.

§ 307-4. Exemptions:

Residents may store de-icing materials outside in a solid-walled, closed container that prevents precipitation from entering and exiting the container, and which prevents the de-icing materials from leaking or spilling out. Under these circumstances, weekly inspections are not necessary, but repair or replacement of damaged or inadequate containers shall occur within 2 weeks.

If containerized (in bags or buckets) de-icing materials are stored within a permanent structure, they are not subject to the storage and inspection requirements in Section III above. Piles of de-icing materials are not exempt, even if stored in a permanent structure.

This ordinance does not apply to facilities where the stormwater discharges from salt storage activities are regulated under another NJPDES permit.

§ 307-5. Enforcement:

This ordinance shall be enforced by the Borough of Mount Ephraim Police Department or its designee during the course of ordinary enforcement duties.

§ 307-6. Violations and Penalties:

Any person(s) who is found to be in violation of the provisions of this ordinance shall have 72 hours to complete corrective action. Repeat violations and/or failure to complete corrective action shall be subject to penalties as provided in Chapter 305, Penalties, of the Code of the Borough of Mount Ephraim

SECTION 2: Except as set forth in Section 1, the balance of the Code of the Borough of Mount Ephraim shall not be affected by this Ordinance.

SECTION 3: All Ordinances or parts of Ordinances inconsistent with this Ordinance are hereby repealed to the extent of such inconsistency.

SECTION 4: If the provisions of any section, subsection, paragraph, subdivision, or clause of this Ordinance shall be judged invalid by a court of competent jurisdiction, such order of judgment shall not affect or invalidate the remainder of any section, subsection, paragraph, subdivision, or clause of this Ordinance.

SECTION 5: This Ordinance shall take effect immediately upon final passage and publication in accordance with law.

BOROUGH OF MOUNT EPHRAIM

Date of Introduction: April 3, 2024
Date of Adoption: May 1, 2024

Approved: _____
Mayor Susan M. Carney

Attest: _____
Terry Shannon, Borough Clerk
